DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 32-59,89-93, drawn to a cutter-fan assembly system.

Group II, claim(s) 60-72, drawn to a particular type rotor drive.

Group III, claim(s) 73-77, drawn to a rotor enclosed by a specific type housing.

Group IV, claim(s) 78-88, drawn to a safety device for a rotor type apparatus.

The inventions listed as Groups I,,II,,III,IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of Group I is the fan-cutter combination. The special technical feature of Group II is the rotor drive. The special technical feature of Group III is the particular housing used for the rotor. The special technical feature of Group IV is the safety mechanism for the apparatus.

A telephone call was made to Marcella Watkins on 6/30/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
